THE PESKY MOSQUITO
CONQUERED AT LAST.
Thousands of people will give thanks this summer and be truly grateful to the Kentucky Chemist who has succeeded in perfecting a preparation that will, when applied freely, prevent mosquitoes from biting you. This discovery is pleasant to use, contains no poisonous drugs and is perfectly harmless, and is known as Paracamp. First Aid to the Injured. Even should the mosquito get to you before applying Paracamp an application of same will stop the itching and prevent swelling by neutralizing the poison. Mosquito bites often produce malarial and other dangerous fevers, for which reason it is the duty of everyone to protect themselves as far as possible from the bites of these annoying insects. Paracamp is a combination of soothing, cooling oils, which, when applied, penetrates to the seat of the hurt, drawing out all fever, soreness and inflammation through the pores of the skin, for which reason it is unequalled for the relief of Sunburn, Prickly Heat, Chafing, Sore Feet, etc. Don't go through a summer without a bottle of Paracamp in your house. Don't take a trip to the woods, lake or seashore without a bottle of Paracamp in your grip. You can use it a hundred ways to good advantage. Sold only in 25c, 50c and \$1.00 bottles at all good drug stores. The Paracamp Company, Louisville, Ky. U. S. A.
